New York Stock Market

New York June II.—The excitoment which attended yesterday's violent break in stocks was absent from to-day's trading, which was comparatively caim, and on a much smaller scale. Some progress was made toward a recovery in the early session, but the effect of this movement was nullified by a severe break shortly before the close. Canadian Pacific was the particular point of weakness, failing nearly 8 points from its high price of the day to the lowest figure since 1911. Steel sold below 50 for the first time since 1929.

Steel sold below 50 for the first time since 1908.

Union Pacific dropped to 1874, and a number of other low records were made, with virtually the entire active list seiling below yesterday's close.

Bear seiling was perhaps the principal factor in the break, which was a disappointment to traders. London trading here was much smaller, being estimated at about 19,000 shares dividend between purchase and sales. Less importance was attached to the Minnesota rate case decision as a market factor, and there was some disposition to emphasize the points in the decision, overpleaked at first, which favor the fallroads. These considerations as well as the technical condition of the market, were effective in supporting the list for a time, but it was soon evident that there was no sustained demand for stocks.

Conditions in the money market came in for considerable discussion. Rates for time loans were stronger, and it was said that even these higher rates were nominal, practically no time money being offered Short terms note issues, amounting to nearly \$30,... (e0.00), were announced and it was argued that they would impose an additional strain upon the moner market.

Bends were irregular. United States bonds were unchanged on call.

New York, June II.—Money on call steady, 18-91% per cent, ruling rate, 2%; closing bid, 2%, offered at 2%. Time loans strong, rates nominal, skxy days, 4% per cent, ninety days, 4% for per cent, six months, 54-65%, frime mercantile paper, 58-66 per cent, sterling exchange weak, with actual business in bunkers bills at \$4.825 for skxy day bills and at \$4.8650 for demand, commercial bills, 44-8%, fine sliver, 59%, Mexican dollars, 48, Government bonds steady; railroad bonds irregular.

New Orients June 11—The cotton marliet was nervous and narrow in the morning
session to-day with no decided tendency,
but in the afternoon theer was a decided
downward movement on selling for both accounts, stimulated by pessimistic reports
from the stock market and a general feeling
the market was weak technically as the
result of the recent heavy buying. The unscassonable cold weather in the belt and reports of too much rain, in a few feetions
had little influence on prices. On the opining the tone was steady and prices were a

appeal to the members of the Common Council.

Another ineffectual effort was made by the Council to adjust the matter by compromise last night. After an hour's conference between a committee composed of two members of each hoard, it reported its inability to reach an agreement, and was discharged. The matter now stands as it did before, and what will be the outcome is just at the present time a matter of speculation. Many of the whiskey dealers have already stated that they wish the matter was settled.

The Board of Aldermen asked for a conference committee after members of Common Council had rejected the proposition for a \$50 increase in the license.

The Finance Committee recently increased the license on liquor dealers passed by the Common Council. The aldermen restored the figures for license to what they were last year.

Last night, however, they were willing to split the difference, and this didn't appeal to the members of the Common Council.
